

## CERN Hourly Announcement

Good [morning | afternoon | evening] Colorado. This is Your Name and Call Sign monitoring the Colorado Connection Statewide open repeater System for the next hour, to answer any call for help. If you have an emergency and can not contact 911 ***DIRECTLY***, please say “Mayday” three times in quick succession. I will gather your emergency information and relay to 911 for your location.

This is NOT a net! This volunteer service is organized by the Colorado Emergency Reporting Network (CERN) in conjunction with The Colorado Connection Repeaters Incorporated.

This is Your Name and Call Sign on The Colorado Connection for CERN.
